

VIA G.MATTEOTTI 103 - LUCIGNANO AR

LUCIGNANO

Lucignano (AR), defined by all as "The pearl of Valdichiana", it's a small village in Tuscany, an example of medieval urban planning characterized by its elliptical layout with concentric road rings. It is located in a strategic place, on the top of a hill overlooking the Valdichiana, connecting route between the cities of Arezzo, Siena and Perugia.

The renovated Palace, has maintained the historic layout and distribution of the floors, with the creation of 4 independent suites, an independent lounge with cellar and bathroom and a spa with rock pool.

The environments are characterized by a mix of existing historical characters or rediscovered in the demolition of all the plaster, contrasted with a minimal style and designer furnishings.

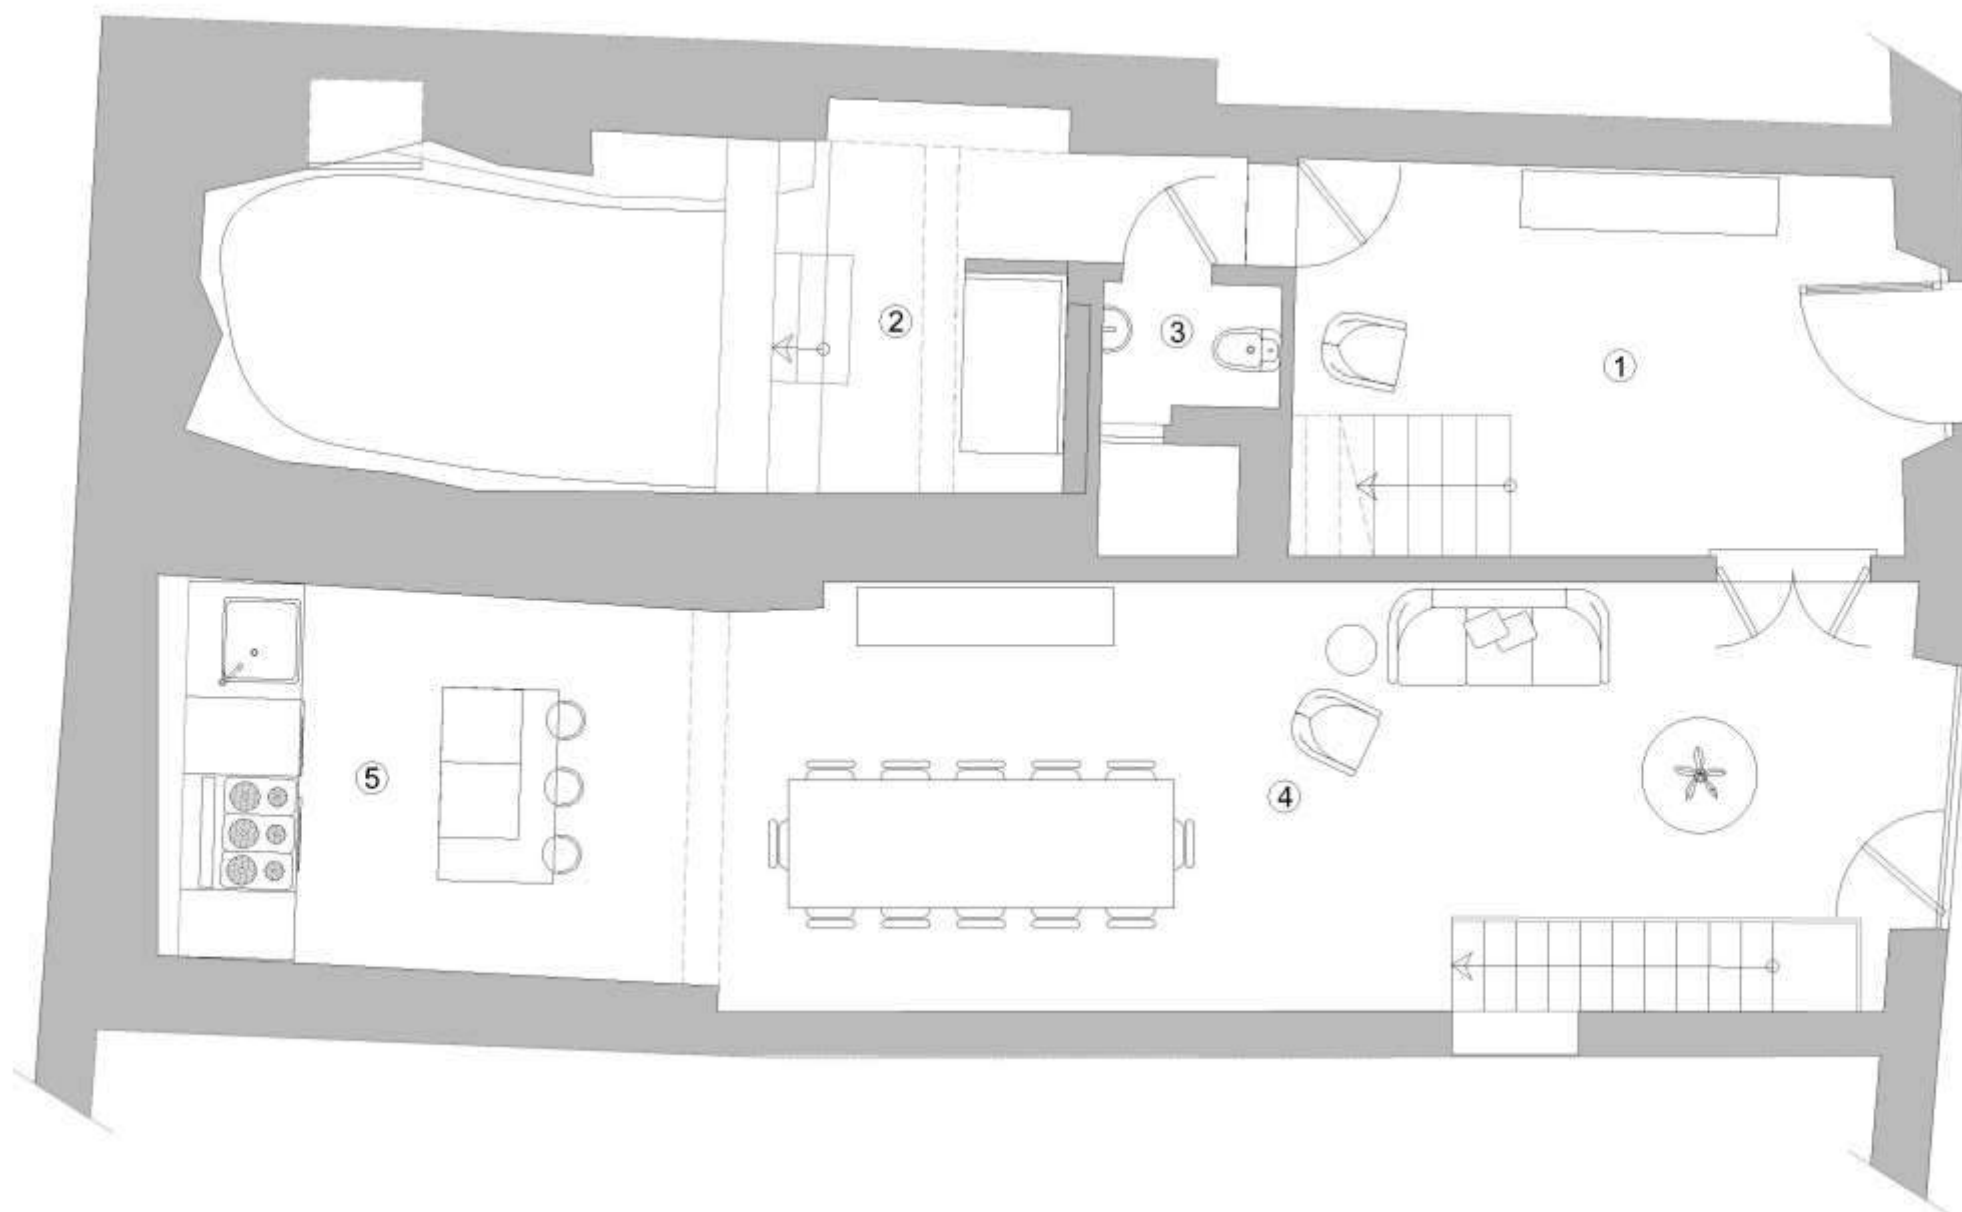

Stairs in pietra serena and graniglia, floors in green marble, travertine and wood, white walls, portions of ancient stone walls, industrial-style glass walls, elegant ceramic coverings, wooden beams, iron elements painted black, are the elements that make up the palette of interventions.
